**DEPARTMENT OF CIVIL ENGINEERING**

**Action taken report for student satisfaction survey 2020 – 2021 (Odd Semester)**

Overall, responses from both the quantitative and qualitative data indicated moderate to high levels of satisfaction with the quality of teaching, instruction and learning and student engagement with students being positive about workloads, assessments, outcomes and available or assigned resources.

Many responses indicated that students felt their lecturers were/are knowledgeable, skilled, enthusiastic, committed, and prepared. Comments were also typically made concerning lecturers' willingness and ability to employ effective teaching methods and incorporate various learning materials, resources and technologies into teaching in ways that enhance student learning. Students also reported that lecturers provide prompt and comprehensive feedback on their academic work, treat students in a collegial manner, and are available when students require assistance.

Some students commented that their workloads were more challenging than they had expected or felt was warranted, and that expected and anticipated outcomes of units and assessments were not always clear. On the whole, however, students felt they were academically prepared for, and supported in their studies, often expressing considerable confidence in the quality of ongoing student support.

As a result of student feedback, the civil department continues to review, develop and implement policies and practices in key areas, such as (a) supervision and monitoring; (b) Regular Workshop and Seminars (c) Enhancing lecturers' professional knowledge. Expectations concerning unit content, assessments and outcomes. (d) Refining and extending data analysis in order to inform and complement effective and meaningful learning and teaching practices (e) Developing strategies that enable senior academic leaders to observe teaching and thus to provide targeted feedback focused on improving.

## **ACTION TAKEN REPORT FOR STUDENT SATISFACTION** **SURVEY**

### **2020 – 2021 (ODD SEMESTER)**

The Student Satisfaction Survey was conducted. On overview, we get the unique commands that the efforts taken by the staffs to inculcate Soft Skills, Life Skills and Employability Skills make the ready for the world of work. Usage of ICT Tools like LCD Projector, Multimedia while teaching is appreciated. Few Students insist to encourage them to participate in Extra-Curricular activities.

Many responses indicated that students felt their lecturers were/are knowledgeable, skilled, enthusiastic, committed, and prepared. Comments were also typically made concerning lecturers' willingness and ability to employ effective teaching methods and incorporate various learning materials, resources and technologies into teaching in ways that enhance student learning. Students also reported that lecturers provide prompt and comprehensive feedback on their academic work, treat students in a collegial manner, and are available when students require assistance.

Some students commented that their workloads were more challenging than they had expected or felt was warranted, and that expected and anticipated outcomes of units and assessments were not always clear. On the whole, however, students felt they were academically prepared for, and supported in their studies, often expressing considerable confidence in the quality of ongoing student support.

As a result of student feedback, the Computer Science and Engineering department continues to review, develop and implement policies and practices in key areas, such as (a) supervision and monitoring, (b) Regular Workshop and Seminars, (c) Enhancing lecturer's professional knowledge. Expectations concerning unit content, assessments and outcomes, (d) Refining and extending data analysis in order to inform and complement effective and meaningful learning and teaching practices, (e) Developing strategies that enable senior academic leaders to observe teaching and thus to provide targeted feedback focused on improving.

## **DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING**

### **Action taken report for student satisfaction survey 2020 – 2021 (Odd Semester)**

- Electrical and Electronics Engineering students of 90 to 95% appreciated the preparation of teachers with the remark 'Thoroughly' and therefore the communication with the remark 'Very effective'. The analysis method and transparency within the system are well applauded by 90% of the students. The mentoring, 90% of students strongly agree with the effort put by the institute boost the standard of teaching and learning process. The Efforts are created by the institute/ teachers to inculcate soft skills, life skills and employability skills to form you prepared for the work are appreciated to nice extent by 89% of students.
- Based on the student satisfaction survey through statistical tools the subsequent action has been initiated by the department. Students are fully happy with the assignment given to them. Most of the students are very much satisfied with the mentoring process however, teachers are requested to require care of the student in cognitive, social, and emotional growth. The general satisfaction level of the students concerning the specialties provided by the institute is incredibly sensible. From the survey, more than 90% of the participants responded that they are satisfied with the services rendered by the college. The utmost range of students 68% agrees that establishment makes efforts to interact students within the watching review and continuous quality improvement of the teaching and learning process.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

**Action taken report for student satisfaction survey 2020 – 2021 odd semester**

- 95% of students have full satisfaction over the quality of teaching learning process in our department.
- Most of the students have expressed their full satisfaction regarding the syllabus coverage, teacher's communication skills, Fairness of internal evaluation process by the teachers.
- Students mentioned that teachers discussed about the teachers explained about course outcomes and program outcomes very clearly.
- Students are satisfied with the mentor system followed in our department.
- Most of the students are appreciated the initiatives taken to improve the quality of teaching learning process.
- Students admired about the efforts taken by the teachers to improve the soft skills, life skills and employability skills.
- Students stated that above 90% of teachers have utilized ICT tools for explaining the concepts.
- Through this satisfaction survey students conveyed that the overall quality of teaching learning process is very good in our department.
- Students stated that teachers may encourage the students to participate in extracurricular activities.
- 15.4 % of students requested the institution to encourage them in promoting internship, student exchange and field visit.
- 10% of students mentioned that teachers not regularly discussed about the assignments of students.
- 20% of students encourage the department to provide multiple opportunities to learn and grow.
- 7.7% of students mentioned that teachers approach to teaching is to be the best.

Based on the above analysis to satisfy the students regarding the teaching learning process, an interactive session is arranged in our department to rectify the difficulties mentioned by the students. In this session our department faculties and students were present. Our department will take necessary actions to solve the gap in the teaching learning process.
